Professional Summary

Software Engineer with experience in React, Next.js, React Native, Node.js, PHP, and MySQL. Skilled in building scalable web applications, REST APIs, and maintainable software.

Technical Skills

Languages: JavaScript, TypeScript, PHP, SQL, Java, C++, Python

Frontend: React.js, Next.js, React Native, Tailwind CSS, Redux, Recoil

Backend: Node.js, Express.js, REST APIs, MySQL, MongoDB, Firebase

Tools: Git, GitHub, CI/CD, VS Code, Figma

Experience

AgamiSoft Ltd.

Nov 2025 – Present

Dhaka, Bangladesh

Junior Software Engineer

Mar 2026 – Present

- Developed production-ready web and mobile applications using React Native, Next.js, PHP, MySQL, and Node.js.
- Built reusable UI components, integrated REST APIs, and developed backend features using PHP and MySQL, reducing feature development time by **25%**.

Trainee Software Engineer

Nov 2025 – Feb 2026

- Developed cross-platform applications using React Native and Next.js.
- Built a JWT authentication backend with Node.js and Express.js using access and refresh tokens, reducing unnecessary re-renders by **30%**.

Japan Bangla IT

Feb 2025 – Jul 2025

Software Developer Intern

Remote

- Developed Next.js applications and customized WordPress solutions.
- Built responsive e-commerce interfaces with REST API integration.

Projects

Online Kenakata (Chaldal Clone) — [🔗 Demo](#)

April 2025

- Developed a responsive grocery e-commerce platform inspired by Chaldal using **Next.js**, **Tailwind CSS**, and REST APIs.
- Implemented product browsing, category filtering, shopping cart functionality, and optimized client-side data fetching for a seamless shopping experience.

Islamic Mission Japan — [🔗 Demo](#)

Feb 2025

- Developed a high-performance community platform using **Next.js**, **Recoil**, and **Tailwind CSS**, reducing page load time by **40%**.
- Improved application responsiveness through optimized rendering and centralized state management.

ERP Mobile App

Dec 2026

- Developed an ERP mobile application using **React Native**, **Expo**, and **Redux** for inventory management, sales, and real-time reporting workflows.
- Implemented centralized state management with Redux, improving data consistency across application modules.

Education

Daffodil International University

Jan 2021 – Jan 2025

B.Sc. in Computer Science and Engineering (CGPA: 3.41)

Dhaka, Bangladesh
